DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- Group I. Claims 1-23 are drawn to a DNA sequence, an expression vector, an expression system, a process for construction of the DNA sequence, and a process for the expression of the DNA sequence.
- Group II. Claim 24 is drawn to a process for the manufacture of a pharmaceutical composition containing hG-CSF.

The inventions listed as I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The inventions listed as Groups I-II do not relate to a single general inventive concept because they lack the same or corresponding technical feature. The special technical feature of claim 1, Group I, is a DNA sequence coding for hG-CSF characterized in that the sequence comprises the nucleotide sequence of SEQ ID NO: 1, which is not shared with the Invention claimed in Group II. For example, Groups II is drawn to a method for the manufacture of a pharmaceutical composition containing hG-

Art Unit: 1646

CSF with multiple sequences lack structural similarity. The PCT rules provide for the examination of the 1st claimed product, the 1st claimed method of making that product, and the 1st claimed method of using that product in one application. However, the PCT rules do not provide for the examination of multiple products, multiple methods of making one product, or multiple methods of using one product in one application.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
